# KIDNEY TROUBLE GUBERNATORIAL BEES

Suffered Two Years-Relieved In Three

MR. C. B. FIZER, Mt. Sterling, Ky. writes: "I have suffered with kidney and

bladder trouble for ten years past. "Last March I commenced using Peruna and continued for three months I have not used it since, nor have I felt

"I believe that I am well and I therefore give my highest commendation to he curative qualities of Peruna."

Pe-ru-na For Kidney Trouble. Mrs. Geo. H. Simser, Grant, Ontario, Can., writes:

"I had not been well for about four years. I had kidney trouble, and, in fact, felt badly nearly all the time. "This summer I got so very bad I

thought I would try Peruna, so I wrote to you and began at once to take Peruna and Manalin. "I took only two bottles of Peruns

and one of Manalin, and now I feel better than I have for some time.

"I feel that Peruna and Manalin cured me and made a different woman of me altogether. I bless the day I picked up the little book and read of your Peruna.' it is the business of the kidneys to remove from the blood all poisonous materials. They must be active all the

times when they need a little assistance. Peruna is exactly this sort of a remedy. It has saved many people from disaster by rendering the kidneys are vice et a t'me when they were not al. own burdens.

time, else the system suffers. There are

#### Cannibalism in Canada.

Winnipeg, Manitoba, Oct. 14 -Tales of cannibalism and famine among natives of Northeastern Canada, between the eastern shore of James bay and Labrador, are brought back by J. A. Osborne, editor of the Fort Francis Times, who has just completed the trip of exploration in that country.

While at Moose Factory, the explorer met a young man who fled thither in terror of his uncle, who, he said, had killed and eaten eight human beings. There, too, he saw a woman, who, last winter, killed and ate her two children, so great was the famine. This lack of food primarily was brought about by the fact that the woods seemed almost deserted with the usual number of deer and rabbits, upon which animals the natives ordinarily subsist.

These occurrences did not seem to cause any stir in that region, and Osborne has come to the conclusion that cannibalism is practiced openly on many occasions among the Indians and halfbreeds.

# AUCTIONEER!

I am prepared to cry sales in this and adjoining countles on reasonable terms. Satisfaction guaranteed. Have been a trader and shipper of live stock 10 years. Am well posted in pedigrees and values. Four years experience as auctioneer.

#### Former Congressman Cowherd Secures Papers Upon Which to File Petitions.

Jefferson City, Mo., Oct. 15 .- Former Congressman William Cowherd, of Kansas City, was here to secure papers from the Secretary of State upon which his petitions for the Democratic nomination for Governor will be filed. He stated that it was a fact that he was in the race and expected to stay in until after the Democratic State primary next August.

Cowherd epent a good part of the day about the State Capitol renewing his acquaintance with old friends. He held a long conference with State Superintendent of Insurance Vandiver, whom a good many regard as a possible candidate for Governor.

PETITIONS FOR ST. LOUISANS

It was learned here that petitions are being circulated in the northern part of the state in behalf of former Attorney General E. C. Crow, of St. Louis, as a Democratic candidate for Governor. A close friend of the ex-Attorney General stated that he was satisfied the latter would be in the race, although he was not aware at this time of the efforts of his friends in the country in securing signatures to petitions. The same authority also stated that so much pressure would be brought to bear on Crow to make the race that he could not well afford to decline, in view of past honors that he had received at the hands of his party. The politicians here have believed all along that Crow would presently get in the race, so the announcement here referred to was no surprise.

Representative H. F. Staple, of Atchison county, has already started his campaign, and with Cowherd an avowed candidate and preparing to make an active canvass of the 24. state, the other candidates will Green vs Allen, note, reset for Oct. doubtless get into the ring in short 24

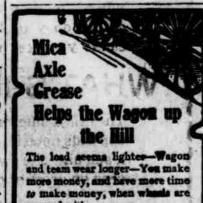

Mayor James A. Reed, of Kansas hood of Foster. City, will not enter the race. David A. Ball, of Pike county, has announced that he will enter the gubernatorial race.

Take something now and then to help the stomach. Kodol will do this. It is a combination of natural digestants and vegetable acids and contains the same juices found in a healthy stomach. It is pleasant to take. It digests what you eat. Sold by Frank Clay, druggist.

# Shot His Little Brother.

Small boys and a revolver again proved to be a bad combination Wednesday afternoon, and Everett Vaughan, aged six years, lies in a critical condition at his home in the south part of the city. Several boys, among them being Everett Vaughan and his brother, were playing with a 22-double action revolver not knowing that it was of the double action pattern. The Vaughan boy pulled the trigger and the revolver was discharged, the bullet entering the right breast of his brother, Everett.

Dr Yster was called and upon examination found that the leaden missile ranged upward, lodging near the throat. The result of the accident cannot be told at this time. However, the boy is resting very nicely to day. - Nevada Med.

# Gold Mine Under New York.

New York, Oct. 14 .- Men in the employ of the department of bridges, who have been making a series of borings along the river front, it is announced, have discovered a vein of gold-bearing quarts under the East river in the neighborhood of the Brooklyn bridge. The ore extracted amounted to two pounds and the gold it contained, it is stated, was estimated to be worth \$40. On this basis the vein would run \$24,000 a

The find belongs to the city, and further investigation will be made to determine whether or not the find is as valuable as it is said to appear. In digging under New York and its adjacent waters there have been several finds of rich ore, but they have been in small pockets and of no great

# The Story of a Medicine.

Its name—"Golden Medical Discovery"
was suggested by one of its most important and valuable ingredients — Golden

Nearly forty years ago, Dr. Pierce dis-covered that he could, by the use of pure, triple-refined glycerine, aided by a cer-tain degree of constantly maintained heat ami with the sid of apparetus and appliances designed for that purpose, extract from our most valuable native me-dicinal roots their curative properties much better than by the use of alcohol,

much better than by the use of sicohol, so generally employed. So the new world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspensia, torpid liver, or billiousness and kindred derangements was first made, so it ever sinde has been, without a particle of alcohol in its make-up.

A glance to the full list of its ingredients, printed on every bottle-wrapper, will show that it is hade from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the biomest checked in the control of the

pean compiled by Dr. H. V. Pierce, of Buffalo, N. T., and will be mailed free to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompained with catarrhal discharges, hourseness, sore throat lingering, or hang-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be aspected of it. It will not perform mira-les. It will not cure consumption in its advanced stages. No medicine will, it will cure the affections that lead up to consumption, if taken in time.

# A Handmade Language.

From Success Magazine.

One of the favorite dreams of the ages is that of a universal language. We have all wanted one speech to prevail in the uttermost parts of the earth; usually we have preferred that our own tongue do the prevail-

"Our beautiful language," sputters a red-face! German, "is so simple

"The speech of the future," a dapper little person announces, with the ald of his nose and eyes and both arms, "will be the French."

The willful perversity of every other nation and tribe but our particumer or a bucket of coal.
